** ALGERIA. 891, Feb 28 at 0542 UT, JBA carrier hetting 890 WLS - in a complete 9/kHz bandscan, the only hit, hope it`s the 300/100 kW near Algiers, R. Algérie Int`l which is still on 24h per mwlist - unless it`s a Cuban spoiler. Still detectable at 0609 (Glenn Hauser, OK, WOR)

** ALGERIA. 891 kHz, March 2 at 0553, JBA carrier making het upon WLS, stronger on E/W loop than N/S shortwire, suspected the highpower near Algiers (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Fri Feb 27 at 2300, WRMI relay S9+30/40 direct of RAE with multi-lingual ID reel and otherwise nothing but very nice music, especially tango, past 2316 (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Mon March 2 at 2308, RAE music via WRMI, 2310 multi-lingual ID reel; 2324 check now in Chinese over music. Usual excellent signal aimed right at us Chinese Argentines in Oklahoma (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, March 3 at 2300, WRMI is OFF. Huge signal on by next check 2310 with Spanish song, 2313 multi-lingual RAE IDs, 2314 Chinese talk, standard remark (Glenn Hauser, OK, WOR)

** ARGENTINA. 28510 USB, March 3 at 2307, LU3HV calling CQ. QRZ.com: ``LU3HV Argentina flag Argentina, JORGE OMAR HERNANDEZ, ESQUIU 1024, RIO CUARTO (CBA) C.P. 5800 5800, Argentina`` (Glenn Hauser, OK, WOR)

** ARUBA. 28440.1 USB, March 4 at 2311, P40L, yes, that`s pronounced ``forty`` in the middle. QRZ.com: ``P40L Aruba flag Aruba, John A. Fore, Sabana Basora 25A, Pos Chiquito, Aruba --- See website at http://www.arubaqth.com for additional information`` (Glenn Hauser, OK, WOR)

** BELIZE. 28370 USB, March 4 at 2307, V31ZA contacting a JBA, but he`s VG: QRZ.com: ``V31ZA Belize flag Belize, KEITH SLATER, P.O BOX 76, San Ignacio, Cayo, Central America, Belize`` - lots of nice scenery photos, and they rescue animals (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, March 4 at 0750, RNA token English about: is SW necessary since we have FM, Internet, streaming, etc.? Uh, yes! (Glenn Hauser, OK, WOR)

** BRAZIL. 25305 USB, way down here, March 3 at 2325, Brasuguese CBish contact with reverb, beeps (Glenn Hauser, OK, WOR)

** BRAZIL. 25305 USB, March 4 at 2258, 2-way in Brazuguese, mentioning Bahia, CBish; as I turned on receiver to where I had left it tuned almost 24 hours ago (Glenn Hauser, OK, WOR)

** BRAZIL. 26015, 25995, 25985, 25955, lots of unID LSB contacts in Brasuguese, in defacto CB, March 2 at 2315. Some with beeps, reverb (Glenn Hauser, OK, WOR)

** BRAZIL. 28270+ CW, Feb 27 at 2308, dash and VVV PY4MAB --- WGB list: ``28270.5 PY4MAB - Pocos de Caldas MG BRA GG68re - #0/1/3 (21 Feb 2026) Note: VVV ID + grid + BCN + 5" carr - Cobra 142 gtl mod. ant vert 10W`` -- It`s Poços de Caldas, not Pocos, totally different words! Poços means wells, caldas means syrup. QRZ.com: ``PY4MAB Brazil flag Brazil, MAURICIO BERALDO, LUIZ ZANGIACOMI 145, POCOS DE CALDAS MG ZIP CODE 37704-274, MG, Brazil - I have a Radio Beacon on the frequency of 28.270.4 CW, 24 hours a day, vertical antenna, 10 watts of power. In 2025 it will be 15 years since Beacon is on the air. Whoever receives the signals and sends me a confirmation by letter I

will respond to everyone and send a special QSL card from my city`` (Glenn Hauser, OK, WOR)

** BRAZIL. 28402 USB, March 4 at 2308, PY2KQ, Ben, with AB4TX. QRZ.com: ``PY2KQ Brazil flag Brazil, RUBENS GALDINO "BEN" FERREIRA DE CARVALHO FILHO, RUA CERQUEIRA CESAR, 1137 - CENTRO, INDAIATUBA, SP 13330005, Brazil`` Lots of antenna views, some with birds perched on them (Glenn Hauser, OK, WOR)

** CANADA. 300 MCW kHz, March 3 at 0743 UT, dash and YIV, 500-watt ND beacon at Island Lake MB (Glenn Hauser, OK, WOR)

** CANADA [and non]. 328 MCW kHz, March 2 at 0734, dash and YTL, 1000-watt NDB at Big Trout Lake, ON. Barely separable from regular 329 PMV Plattsmouth NE (Glenn Hauser, OK, WOR)

** CANADA. 334 MCW kHz, March 3 at 0744 UT, dash and YER, 195-watt ND beacon at Fort SevERn ON - first time log. ``Fort Severn First Nation is a Western Swampy Cree First Nation band government located on the Severn River near Hudson Bay. It is the northernmost community in Ontario, Canada. In 2001, the population was 401, consisting of 90 families in an area of 40 square kilometres.`` And it`s 2312 km = 1436 stmi from Enid (Glenn Hauser, OK, WOR)

** CANADA. 351 MCW kHz, March 2 at 0737 UT, dash and YKQ, 500-watt NDB at Waskaganish QC, which is 2259 km = 1403 stmi from Enid (Glenn Hauser, OK, WOR) Note this is slightly closer than 334 YER above

** CANADA. 15034 USB, Feb 26 at 1544, CHR Trenton Military finally heard again after missing several days at random chex; flight weather for Halifax, good S8 direct (Glenn Hauser, OK, WORLD OF RADIO 2336)

** CANADA. 6754 USB, Feb 28 at 0555, Trenton Military VG now and with carrier! Never like this before, different transmitter? Still no LSB. Check whether 15034 also be USB + carrier (Glenn Hauser, OK, WOR)

** CANADA. 15034 USB plus carrier! Feb 28 at 2005, like 6754 last night, Trenton Military has added carrier, different transmitter? S9 into PEI SDR. At 2036 into Miramar FL SDR, also, obviously transmitted rather than QRM. Flight weather for Thule, then one report not received. At 2037 UT announces time as ``1935 zulu`` - just like before when they could not tell time with any accuracy! again at 0227 UT March 1 on 6754 USB+carrier, time imagined to be 0125z (Glenn Hauser, OK, WOR)

** CANADA. 15034 USB, March 3 at 1547, Trenton Military is gone again, no signal direct. But if they were on, would misannounce time as 1445z. Then left PEI SDR running until timeout at 1915, no CHR not even a carrier. Also nothing on 6754 USB direct at 2317 check (Glenn Hauser, OK, WOR)

** CANADA. 15034 USB, March 4 at 2317, Trenton Military active again, ``time 2215 zulu``, as usual 62 minutes slow and the stupid robovoice does not realize the contradixion with times later than that cited for aviation weathers, i.e. Bagotsvillle at 2300z (Glenn Hauser, OK, WOR) {Did not notice carrier this time, but wasn`t checking for it either}

** CUBA. 530 kHz, Feb 28 at 0607, undermodulated music, presumably CMBQ (Glenn Hauser, OK, WOR)

** CUBA. 1141 kHz, March 2 at 0548 UT, JBA carrier hetting 1140. Editors assume to be one of the 8 Cubans listed on 1140, R. Mayabeque, but I never pull any modulation. Is that or one of the others always on 1141? Or a sometimes thing. What do local listeners around Mayabeque hear? (Glenn Hauser, OK, WOR)

** CUBA. David Crawford replies to my inquiry about the 1141 kHz carrier:

``Hello Glenn, 1141 programming has consistently been Radio Cadena Agramonte, Camagüey for a while now, but is still sometimes only an open carrier.

The 1141 carrier was first noted here May 2024. Progreso programming was first noted August 2024, and first noted with full modulation in October 2024, but only carrying any audio very intermittently. CadAg programming was first noted April 2025, and has generally been there more than carrier-only since. Having said all that, it's probably time to check the programming again.

With the apagones, usually there's nothing on 1141 at all lately, and activity has been very intermittent, and usually there only after 03 Z.

The previous, primary CadAd freq of 910 was last heard here in November 2022 with bad modulation. The station made a surprise appearance through the 1180 pile in April 2025 but I haven't confirmed it there since.

Recent checks on 1140 at night here usually find one Rebelde dominating, and sometimes CMBF there. Sometimes there's nothing from Cuba, and WRVA, WQBA, and WBXR own the channel. WQBA slowly varies around 1140.023 and is easy to identify by the offset.

Another question related to 1140 is whether Radio Surco is still on the air. I've had no confirmed reception of them on 1080 or 1140 in a good while. -- David E. Crawford, Indian River City, Florida Libre`` - tnx, David! (Glenn Hauser, WOR)

** CUBA. 5025, March 2 at 0610, R. Rebelde is OFF. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 5025, March 1 at 0157, R. Rebelde is OFF; but by 0741 is on with music. BTW, R. Progreso 4765 has not been heard in weeks, nominal sked only 0130-0500. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 11760, Feb 26 at 0732, S9+15/55 of dead air from RHC not turned off hours ago. 15140, Feb 26 at 0733, JBA carrier. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 15140, Feb 26 at 1545, RHC S7/S9 music JBM with windhowl; 15230 S7/8 JBM music without howl; also 11760 at 1548, good mod and clear S7/S9. SAWA (Glenn Hauser, OK, WOR)

** CUBA. Terry Krueger comments on the WOR iog: ``11880 CUBA RHC 2000 22 FEB 2026 - The best time to catch RHC in English here in NW Florida, 2000-2100. Always local level and the one transmitter which works almost flawlessly compared to the others. The same transmitter is used for Spanish on 11760 at equal excellent level until highly variable 1600-ish switch to 11880. Or sometimes, they don't bother to switch and stay on 11760. Or sometimes, they never bother to come up on 11880, like this day. Maybe Millennial Miguel (who never got to learn "responsibility" from Arnaldo de Jesús Coro Antích) is on coffee breaks when this happens?`` (VIA Glenn Hauser, WORLD OF RADIO 2336)

** CUBA. 9710, Feb 27 at 0807, S8/S9 of dead air no doubt RHC again failed to turn off much earlier, total waste, SAWA (Glenn Hauser, OK, WOR)

** CUBA. 9710, UT Sat Feb 28 at 0600, RHC ``on SW and online`` with theme, 0602 ``Ed Newman`` announcing start of English with topix preview: news, Viewpoint, Arts Roundup, The weekly Mailbag Show, Caribbean Outlook Show; then news by YL with accent. Good modulation, S9+20/30. All this for one hour or two? Anyhow, off at 0712 check. Many WOR iog reports of English here earlier in evening. In the 0400 hour, Chris Campbell, OH, said, ``I always thought that [Mailbag] was a Saturday & Wednesday feature but who knows with RHC anymore`` (Glenn Hauser, OK, WOR)

** CUBA. 9710, March 1 at 0751, RHC S9+10 but JBM in English; 11760 at 0755, S9+25 of dead air except for windhowl. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11880, March 2 at 0617, S9+20 of dead air, RHC not turned off. Still at 0727 S9+30. No others found like 9710. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11880, March 2 at 2240, RHC in English. Others have been reporting English at this hour; off at 2308 check; as is 13650 China relay at 2311. SAWA (Glenn Hauser, OK, WOR)

** CUBA [non]. 13650, March 3 at 2315, CRI music-instead-of-Portuguese relay is OFF, but still on 6100 which is direct from Beijing site. Lots of other Chisigs all over bands 6-12 MHz (Glenn Hauser, OK, WOR)

** CUBA. 9710, March 4 at 0737, S9/+5 of deadair from RHC failed to turn off much earlier; also 11760 S9+20 of deadair plus windhowl. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 15140, 13650, 11950, 11880, 11760, 9710, March 4 at 2321, NO signals on any of these frequencies. SAWA (Glenn Hauser, OK, WOR)

** CHILE. 28477 USB, March 4 at 2312, CE6YUS calling CQ 10 in English, then in Spanish. QRZ.com: ``CE6YUS Chile flag Chile, Yussep A. "Alejo" Diaz Aguilar, Wagner 1299, Angol, Chile`` -- Lots of other 10m activity from S America (Glenn Hauser, OK, WOR)

** IRAN [non]. 5885, Feb 28 at 1720 & 1825, S7/S8 into Riyadh SDR, presumed Farsi talk, from Iran International TV, which is TO, NOT FROM! Iran. website translates nicely to English, but nothing obvious about SW broadcasts, just started?
https://www.iranintl.com/en
It may be new to SW, but this is obviously a well-established news source! Roger in Germany uncovered SW schedule: 03-16 UT on 9500, 16-03 on 5885, and performed TDOA, both pointing to Bulgaria site, not Romania. Baghdad is not getting it, and what happened to all the Kuwait remotes? Via Riyadh it keeps cutting off and on. Further chex: 1955 temporarily gone via Riyadh; 2126 Qatar gets 5885 S7/S9.

Further chex UT Sunday March 1 of 5885: at 0149 JBA direct with music = noiselevel S9+5. At 0242 now better S7/S8 with talk. At 0353, still on 5885 not 9500 as per supposed sked switch at 0300, and S7/S9 into Qatar SDR, still at 0410. At 0535, not on either into Qatar, nor UTwente (Glenn Hauser, OK, WOR)

** IRAN [non]. 5884.999-, March 4 at 0032, Iran International TV, VG S9+20/25 into UTwente, presumably via BULGARIA, with lite het, perhaps jamming. 12110, March 4 at 1546, JBA carrier (Glenn Hauser, OK, WOR)

** JAPAN [and non]. 28381- USB, Feb 27 at 2309, JH4IFF contacting ZV1RJ in Rio. QRZ.com: ``JH4IFF Japan flag Japan, Mitsumasa "MITSU" Uto, 681 Tatsukawa, Akaiwa, Okayama 709-0815, Japan`` - quite a number of Japan/Brasil QSOs which are close to antipodal (Glenn Hauser, OK, WOR)

** JAPAN. 28410 USB, March 2 at 2321, JR1MLT, ``my little Toyota``, working Vlad in Washington State. QRZ.com: ``JR1MLT Japan flag Japan, Koichi Kasamatsu, 332 Iwai-cho, Hodogaya-ku, Yokohama 240-0023, Japan`` with lots of background info, fishing photos; has spent a lot of time abroad including a sesquidecade in Atlanta. Can`t find that Vlad who said he has been in USA for 35 years (Glenn Hauser, OK, WOR)

** JAPAN. 28555 USB, Feb 27 at 2315, JJ0SNQ calling CQ10. QRZ.com: ``JJ0SNQ Japan flag Japan, Mark "Mark" -- Page managed by CX8RP -- This call sign record has incomplete details: country. Other details regarding this record are not shown while we wait for additional data`` (Glenn Hauser, OK, WOR)

** KOREA NORTH. 9435, March 3 at 1542, VOK music but carrier is rapidly wobbling, S3/S6. Also, Tony Pavick, BC observes at 1627: ``VoK has been in a pretty sad state these past several days. 9435 has a godawful hum and distortion. 11710 sounds like it has contracted a case of Cuba's windhowl with almost no audio making it through`` (Glenn Hauser, OK, WOR)

** KOREA NORTH. 9650.01, March 4 at 0745, music, maybe hymn? Slightly off-frequency, not Turkey which finishes at 0700. EiBi shows VOK in Japanese (Glenn Hauser, OK, WOR)

** MALAYSIA. 15295, March 4 at 0119, JBA carrier, presumably RTM reactivated by March 1 following tests in Feb, but no signal on 11885; these are tough to hear here, unlike further west. Exact transmission spans not clear (Glenn Hauser, OK, WOR)

** MARTINIQUE. 28485 USB, March 3 at 2257, FM8QR quickworking UStations. QRZ.com: ``FM8QR Martinique flag Martinique, JEAN.MICHEL SUIRE, 22 Allée des Hippocampes, LES 3 ILETS 97229, Martinique`` with some nice scenery photos; says going back to European France soon (Glenn Hauser, OK, WOR)

** MEXICO. 570, March 2 at 0603, choral NA, but no Spanish ID or anything after it at 0604. Most likely XEBJB, San Nicolas de los Garza = Monterrey NL, 5000/500 watts (Glenn Hauser, OK, WOR)

** MEXICO. 690, March 2 at 0603, choral NA. IRCA Mexican log indicates of the four XEs on 690, it`s either XEN CDMX 100/5 kW, or XEMA Fresnillo, Zacatecas 50/2 kW (Glenn Hauser, OK, WOR)

** MEXICO. 1670, Feb 28 at 0534, Spanish JBA, mentioned Tamaulipas and Focus; so: XEFCR Reynosa, 10/1? kW. Of the four US on 1670, one is SS:REL, KHPY in California (Glenn Hauser, OK, WOR)

** NEW CALEDONIA. 28207.4 CW, March 2 at 2318, VVV DE FK5ZDC/B, that new beacon. For details see my Feb 15 log (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 13755, March 1 at 0757, RNZP S6/S8 with music, the last day for 13755. As first pointed out by Ricky Leong, disruptions are coming this week. The confusing sked as now presented at https://www.rnz.co.nz/international/listen

UTC	kHz	Target	Days
00:00 - 05:58	17675	UPDATED 27 FEB 2026	Pacific Daily
05:59 - 08:58	13755	however due to antenna maintanance {sic} 11725 from 2 March	Pacific Daily

(Glenn Hauser, OK, WOR)

** NEW ZEALAND. 13755, March 2 at 0618 and 0726, RNZP still here, S9+20, the SSOB, despite sked showing it would be off for maintenance this week, 11725 instead, not there (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 11725, March 4 at 0749, S9+30 of music, RNZP finally here, temporarily? for maintenance, instead of 13755 (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6925 AM, March 1 at 0155, pirate music JBA S9. Reports here as Liquid Radio:
https://www.hfunderground.com/board/index.php/topic,159446.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6950, March 3 at 2318, pirate music so not KCRC X5. Other unID logs:
https://www.hfunderground.com/board/index.php/topic,159582.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6960 USB, March 1 at 0153, piraterock music, S9+15. Many reports here with some planetary SSTV images, as Wolverine Radio:
https://www.hfunderground.com/board/index.php/topic,159445.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 9025, I have not caught the `presidential pirate` again, but Terry L Krueger certainly has. Following is solely from him, and must be credited as such:

``Boggy, Florida Occidental, IC-R75, NRD-535, ICF-7600GR, ICF-7600D, Tescun PL-360, active loop, random fence-stapled wire, misc. junk. 9025 NORTH AMERICA (MUTANT) 'Presidential Pirate' 1546 19 FEB 2026 (Thursday) The usual presidential speeches audio snips at tune in, again noted up at 1608. Very poor today. And 1608+ 20 FEB (Friday) at fair level. But again, no trace of this on 21 FEB (Saturday) or 22 FEB (Sunday), building on my theory that if not active weekends and federal holidays, the source is a defense contractor testing a new transmitter on this USAF HF channel. And there it is, back on 23 FEB 1428 check (Monday). Didn't get a chance to much monitor on 24 FEB (Tuesday), but up at 1718 25 FEB (Wednesday), on/off as usual. Same 26 FEB, 1429 (Thursday) up briefly as well as other times after. What I never noticed is that de-tuning to 9024.80 USB has the carrier seemingly constantly on`` (VIA Glenn Hauser, WORLD OF RADIO 2336)

** NORTH AMERICA. 9025 AM, March 4 at 1541, S5/S6 pirate introducing JFK inauguration Jan 20, 1961, and a bit of his speech. Terry Krueger thinx it`s a contractor on a USAF frequency (Glenn Hauser, OK, WOR)

** OKLAHOMA [and non]. 338 MCW kHz, Feb 27 at 0727 UT, RYN Tucson `Ryan` mixing with TU, TUlsa NDBs; tuned to 336.6 USB. RYN is a lot further but a lot wattier than TU (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1680, Feb 26 at 1535 UT, JBA carrier wobbling at the rate of about 5X per second, into home rig. Presumably Virtual DJ Radio from other side of Enid, where I always hear it well on the caradio but no BFO to detect the wobble (Glenn Hauser, Enid, WOR)

** OKLAHOMA [and non]. 5140 USB, Wed March 4 from 1501, Oklahoma

emergency ops net, starts a minute late, as I also tune in a minute late, having to reconnect my antenna after overnight lightning storm. There is still a lot of storm QRN. Breanna in Edmond is again the NCS, giving her ham call KM4UJS as well as WSHM692. Rollcall with only a few answers:
WQYW443 Beckham County;
WQZT582 Broken Arrow;
WQSY836 Byng;
WNPV700 Durant EOC, S9+35 L&C as usual, Bill;
WQYW883 Moore EOC;
KNGR728 Pontotoc County;
WPFY721 Seminole, Ernie answers; is NCS other weeks;
WNBM839 Stillwater EOC, answers;
WNCH625 Tulsa EOC;
WNBE830 Missouri State EOC, Jefferson City.
Now it`s 1506, any others? Now WNBE830 answers. Closing net until next week, 9 am Central - does not point out that with imposition of nonsensical DST, will then be at 1400 UT (Glenn Hauser, OK, WOR)

** OKLAHOMA. 740 kHz, Feb 27 at 1253 UT during bandscan happen to hit KRMG Tulsa with advisory that viewers of Fox 23 by antenna will need to rescan by March 7. That`s KOKI; means that it`s changing RF channels, from what to what? Rabbitears.info shows it`s on physical = RF channel 22, and will continue but `soon` callsign KOKI-TV will be carrying the ROAR network; no mention of Fox as network/affiliation! Maybe it`s about a slight change in transmitter sites SE of Tulsa. Ah, here`s the scoop:
https://www.fox23.com/news/fox23-tulsa-moving-to-ktul-8-2-in-february/article_3c59dfb2-6623-43e6-9bf0-94be9695dcd6.html

``FOX23 Tulsa Moving to KTUL 8.2 in February
FOX23.com News Staff Feb 6, 2026

FOX programming in Tulsa is getting a new channel location. Sinclair has acquired the FOX affiliation previously carried on KOKI FOX23 as part of a transaction with Rincon Broadcasting. Beginning February 9, 2026, all FOX programming, including FOX network shows and FOX23 News, will move from KOKI 23.1 to KTUL 8.2.

Simulcast Period Planned -- To give viewers time to adjust, FOX programming will air on both KOKI 23.1 and KTUL 8.2 for three weeks. The simulcast will run through March 1. Starting March 2, KTUL 8.2 will become the permanent home of FOX23 in Tulsa.

What Viewers Need to Know

Viewers who watch FOX using an over-the-air antenna will need to rescan their televisions to receive the new channel. Sinclair is working with cable and streaming providers, including Cox, DISH, DirecTV, Optimum, YouTube TV and Hulu to minimize any disruption. These changes will not affect ABC programming.``

Here`s what really happening, already in rabbitears.info:
KTUL is identical on two different physical channels, 14 and 24, but both displaying as 8, with 8-1 ABC, 8-2 FOX, 8-3 Antenna TV, 8-4 Rewind TV. 8-1 nickname NewsChannel 8 and 8-2 nickname Fox 23 Tulsa.

So the KOKI call letters are being deleted?, or not:
KOKI-TV is still in rabbitears on display 23, physical 22, but with 6 other non-Fox networks: ROAR, Me-TV, Dabl, Charge!, Comet TV, The Nest.

And Doug Smith, Nashville also replies: ``The KTUL on physical 24 is a Digital Replacement Translator in McAlester (there is no engineering difference between a "Digital Replacement Translator" and a plain old

translator. The difference is purely legal.) If similar Sinclair actions in other markets (like Nashville and Dayton) are any indication, KOKI 23 is not going away. It will remain 23.x with ROAR on 23.1`` (Glenn Hauser, OK, WOR)

** SPAIN. 12030, Feb 27 at 2259, REE reactivated on ME frequency, also on 9690 to NAm, 17715 SAm, still no 17755 to Africa. If it`s Friday there must be no English (Glenn Hauser, OK, WOR)

** SPAIN. 12030, March 4 at 0755, music S3/S4, what`s this? 0757 in Spanish, so must be REE, testing? Per EiBi maximum span is 15-24 depending on day of week. Not on 9690 or any others. Nothing at next check 1545. However one other 12030 could be R. Delta Int`l, Netherlands, irregular between 00 & 12.

Ralph W Perry, Wheaton IL, also noted this 4 March: ``12030 Radio Exterior De Espana, presume via Noblejas flamethrower from unsked 0810 with huge signal. Playing slick recorded show with smooth SS deejay to 0843 when taped show ran out and just transmitted open carrier with S9 signal until 0855 when audio started up again. Show a survey of popular SS and EE love songs from 1960s like "No Puedo Vivir" and "I Am in Love With Love". Plenty of IDs at 0855 resumption. This was so strong, was at first guessing a Greenville relay, but . . . ?`` (Glenn Hauser, OK, WOR)

** SPAIN. 12030, March 4 at 2300, REE off the air again, nor on 17755, but VG on 17715 for SAm, S9+20/30, equal to 9690 for NAm as weekly Wednesday token English is opening after accurate timesignal compared to WWV. Preview topix: dispute between Spain and US as Trump says US will cut off all trade with Spain because it does not support his war on Iran! More about Iran conflict. International Women`s Day will be Sunday = March 8. 2302 news summary (Glenn Hauser, OK, WOR)

** TURKEY. 6125.003+, Feb 26 at 0453, VOT not off the air, signing off in English, S9+25 into UTwente; 0454 IS to 0456*. The previous to NAm Feb 25 at 2300 on 5960, had been missing (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Feb 27 at 2258, VOT not off the air, JBA S9 direct with IS and ID (Glenn Hauser, OK, WOR)

** TURKEY. 9660.018-, Sunday March 1 at 1730, VOT English, S9+10/25 into UTwente, news mostly about Iran; 1740 song; 1746 `Letterbox` with Cemre who says this is the highlight of her week, mail from US, India, China, Sweden, Finland. 1) William Wighnock? Narnox?, Norwood MA. 2) Jayanta Chakraborty, New Delhi, weekly, asks about beach resorts. Mentions 3, names uncopiable, on Mediterranean, Aegean, Black Sea coasts; also mountains for winter sports, landscapes. Suggests programs about eminent personalities. Maybe, they consider new topix every 6 months. 3) Mr Amman? Bayne?, pres. of SWL club in India since 1990, 348 members. Reports 6125 via UTwente at 0400; No one in India reports `their` fq 7285, but the NAm one!, enclosed club stuff. Vegetarians in Turkey? Some, not widespread, but there are vegetablic staple dishes. 4) J? J? Xian?, Guangzhou, China, she mispronounces ending in oo, not oh, 44 years old. 5) Björn Danielson?, southern Sweden, complains that 5980 is spreading out plus/minus 15 kHz causing ACI. That`s Turkish at 17-22. 6) ? ?, Tampere, Finland, 13635 had QRM from 13633 jammer - I doubt that. 7) Siddartha Papajarjee, India, reminds of World Radio Day 13 Feb. 1807 that`s it, 1808 theme, 1809 ``with-you-every-hour`` promo (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.003-, March 2 at 2308, NO signal direct from VOT English; but 2343 into UTwente at S9+40 songs sound Turkish, atop a weaker musicker which would be East Turkistan, land of imperialist ChiCom genocide against Uyghurs and other Moslems. However, no s/off in English so suspect VOT was running Turkish-language service by

mistake, which went off shortly before 2400 uncovering Urumqi with timesignal (Glenn Hauser, OK, WOR)

** TURKEY. 5960, March 3 at 2300, VOT not off the air, signing on in English as if it`s 1330 on 13635 - something`s always awry at Ankara, noisy S9. By 2314 music has improved to S9+10/20 (Glenn Hauser, OK, WOR)

** TURKEY. 5960.002-, March 4 at 2259, VOT JBA direct. By 2339 into UTwente when measured, S9+20/40 amid `Letterbox` Wed repeat from Sunday (Glenn Hauser, OK, WOR)

** U S A. 257 MCW kHz, March 3 at 0734 UT, FWK, 25-watt ND beacon at `Wayne County`, Fairfield IL, is JBA mixing with SW, StillWater OK, which is normally alone when active. First time I`ve heard FWK. Fairfield is between Mt Vernon and Mt Carmel in SE IL (Glenn Hauser, OK, WOR)

** U S A. 293 MCW kHz, March 2 at 0732 UT, UI, NDB at qUIncy IL is JBA undermixing with FBY FairBurY NE (Glenn Hauser, OK, WOR)

** U S A. 293 MCW kHz, March 3 at 0738 UT, TOR, TORrington WY, 25-watt NDB, is audibly mixing with usual dominant FBY, FairBurY NE (Glenn Hauser, OK, WOR)

** U S A. 299 MCW kHz, Feb 26 at 0744, HW, ND beacon at `Cubla`, Wilmington OH, 25 watts, as first heard exactly 4 days ago. Wilmington is between Cincinnati and Columbus (Glenn Hauser, OK, WOR)

** U S A. 305 MCW kHz, Feb 26 at 0745, RO, ND beacon at Roswell NM, and no sign of OI Sioux City, vice versa the case 48 hours ago (Glenn Hauser, OK, WOR)

** U S A. 359 MCW kHz, March 1 at 0730, GGF, 25-watt NDB at Grant NE. 383 MCW kHz, March 1 at 0731 UT, CNP, 25-watt NDB at Chappell NE. Not new but not always audible, in full beacon bandscan (Glenn Hauser, OK, WOR)

** U S A. 382 MCW kHz, Feb 27 at 0732, MW, 25 watt NDB at `Jonny` Marion IL. Tuned to 380 USB; first time heard (Glenn Hauser, OK, WOR)

** U S A. 397 MCW kHz, Feb 27 at 0735, JE, NDB `Algoa` at JEfferson City MO; tuned to 395 USB where it`s louder than CA, 25 watt `Harvs` at Newton KS, which is really on 395 (Glenn Hauser, OK, WOR)

** U S A. 521 kHz, Feb 28 at 0737 UT, TO, JBA ND beacon at TOpeka KS, tuned to 519.5 USB. 25 watts `Biloy`. I often check for this but usually no sign of it in this band, just strong PN Ponca City OK on 515 (Glenn Hauser, OK, WOR)

** U S A. 28252 CW, March 3 at 2303, very slow beacon: KI6MTV/B. QRZ.com: ``KI6MTV USA flag USA, Michael R Hislop, PO BOX 121, SHINGLE SPRINGS, CA 95682, USA`` (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2335 monitoring: ``Richard Lemke, St. Albert, Alberta, Canada, From the desk of Richard’s listening Post, Radio: JRC NRD-535 HF, 1995, (31 years of service), Antenna: random long wires in the trees. WRMI, World of Radio #2335:
15770 kHz, 2230-2258 (4-55433), Feb 21 UTC machine gun QRN [Sat],
9395 kHz, 0130-0159, February 25 UTC no signal heard [Wed],
9395 kHz, 0030-0059, (4-55433), February 26 UTC clear sound [Thu],
(Lemke, Richard -AB) 73’s, Richard 8:54 am February 26, 2026``

Confirmed UT Thursday February 26 at 0030 on WRMI 9395, S9+20 into N9AZZ IL remote.

Also confirmed UT Thursday February 26 at 0135 the 0130 on WRMI 5010, S9/+35 but noisy direct.

Not confirmed Thursday February 26 at 1730 on SW Radio Gold, Germany, 3975 & 6160 into UTwente; rock music instead as expected from `Talkmusik auf Kurzwelle!` test; however program sked for today and next four weeks still shows CQ-S Thu at 17-18 including WOR at 1730.

Confirmed NEW time of 0030 UT Friday February 27 on WRMI 5950, VG direct. Perhaps in following weeks will have new WOR ready to air by this slot ASAP, rather than final repeat on WRMI.

WORLD OF RADIO 2336 contents: Argentina non, (Belarus), Brazil and non, Bulgaria non, Canada and non, Cuba, Europe, Finland, Germany, Indonesia, Iran non, Israel, Korea North non, Luxembourg, Marshall Islands, Netherlands, North America, (Romania non), Spain, Taiwan, UK, USA, Vanuatu, Zimbabwe; new DX songs; propagation outlook - (countries mentioned along with others not in order)

Also confirmed Sunday March 1 at 2330 on WRMI 9455, S9+35/40 direct.

Also confirmed UT Monday March 2 at 0000 on WRMI 9395, S9+30/35 direct.

``9395 UNITED STATES (FL - Okeechobee) WRMI at 2400. Opening WoR (no. 2336), Glenn's weekly report - confirmed. A little rough with Drake SW1, longwire -- Fair; Choppy   3/2 {UT Mon} (Rick Barton-AZ)``

Also confirmed UT Monday March 2 at 0030 on WRMI 7780, S6/9+10 into S TX SDR.

Also confirmed UT Monday March 2 from 0401 on Area 51 webcast only; 5130 WBCQ had just switched to sign-off.

Also confirmed Monday March 2 at 2030.7 on SW Radio Gold, Germany, 3975.001+, S8/9+10 into UTwente. Next:

0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160;
0030 UT Friday WRMI 5950 to NNW [NEW].
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2336 monitoring: confirmed UT Tuesday March 3 at 0330 on WRMI 7780, S8/9+5 into S Texas SDR.

Also confirmed Tuesday March 3 at 1400 on WRMI 9955, S8/S9 direct.

Also confirmed Tuesday March 3 at 1505 the 1500 on WRMI 9955, S8/9+5 direct but noisier.

Also confirmed Tuesday March 3 at 2100 on IRRS SW via AM Italia, 1322.997-, S9+5 into UTwente. Next:

0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160;
0030 UT Friday WRMI 5950 to NNW [NEW].
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2336 monitoring: confirmed UT Wednesday March 4 at 0032 the 0030 on SW Radio Gold, Germany, 3975.001, S8/S9+ into UTwente.

Also confirmed UT Wednesday March 4 at 0131 the 0130 on WRMI 9395, S7 direct.

Also confirmed Wednesday March 4 at 2034 the 2030 on SW Radio Gold, Germany, 3975.001+, S9/+10 into UTwente.

Also confirmed Wednesday March 4 at 2200 on WBCQ 7490 -44 Hz = 7489.956 into Maryland SDR, S9/+5. Before 2200 sounded like TOMBS again before chopped for ID. From next week: 2100. Next now:

0030 UT Thursday WRMI 9395 to NNW {from next week: Wed 2330};
0130 UT Thursday WRMI 5010 to S {confirmed};
1730 UT Thursday SW Radio, Germany 3975 & 6160;
0030 UT Friday WRMI 5950 to NNW [NEW]{from next week: Thu 2330}.

Thanks this week to David Costa, Jacksonville FL, for a contribution via PayPal in US funds but not necessarily, to: woradio at yahoo.com and says, ``Thank you for so many years of information for short wave listeners``

One may also contribute via MO or check on a US bank to:
Glenn Hauser, PO Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A. 5085, WTWW has received replacement parts, George McClintock tells me, and expects to be back on air by Saturday Feb 28, but not in time for the original WOR scheduled time of UT Sat 0400; possibly will run it UT Sun or Mon at 0400? (Glenn Hauser, OK, WOR)

** U S A. 5085, WTWW: George McClintock informed me March 1, that some more parts were needed to repair the transmitter, ordered for ASAP delivery hoping to resume this week (Glenn Hauser, OK, WOR)

** U S A. 9330, Feb 26 at 0729, WBCQ is off again, and also at 1539. So I asked Allan Weiner: ``Yesterday Feb 25 at 2322 UT = 6:22 pm EST, I was hearing Portuguese on 9330, S9+20/30 on my generous meter, but as before, ``non-solid`` signal off the side of your 170 beam toward Brasil. But later in evening and since then, no signal on 9330. Can you confirm this was WBCQ? I assumed it was, but also occurred to me that WLC might have got some time on some other transmitter but on the

old frequency. So what is the outlook for full WLC service on your 9330 resuming? Tnx, Glenn`` - 24 hours later, 9330 is not back on again, 2333 check Feb 26 (Glenn Hauser, OK, WORLD OF RADIO 2336)

** U S A. (7490), Feb 28 at 0100 on WBCQ webcast, `AAAWWW` opens with ``before AI takes over the world ---``, so a repeat of last week Feb 21, which was a repeat of Feb 14 - and no other frequencies running, checked into Vermont SDR. Never mind. AW still hasn`t replied to my inquiry about 9330 heard back on (Glenn Hauser, OK, WOR)

** U S A. 9330, Feb 27 at 2257, still no signal from WBCQ/WLCR, but I am quite sure that is what I heard in usual sidewise Portuguese Feb 25 at 2322, never since. However, something else showed up, pirate WDOG:

``This one's usually in the 6.9 MHz band, but he's broadcasting up at 9330 USB with classic rock and R&B songs so far. I'm getting good reception from the SDR in Fair Hill, Maryland. You'll sometimes hear dogs barking and howling during the music, which is WDOG's usual practice. Eric Fetters-Walp, Lake Stevens, Washington USA, My QSL website:`` https://treehouseswl.mystrikingly.com (Glenn Hauser, OK, WOR)

** U S A. 5950, Mon March 2 at 0729, WRMI is off, unlike 24h earlier on UT Sun when it was on again during WORLD OF RADIO (Glenn Hauser, OK, WOR) See also ARGENTINA [non]

** U S A. 7505, Feb 26 at 0738, gospel huxter in English, S9+20/40 direct, another unpredictable WRNO extension (Glenn Hauser, OK, WOR)

** U S A. 7505, Feb 27 at 0805, WRNO still on late, S7/S8 in undermodulated English (Glenn Hauser, OK, WOR)

** U S A. 7505, Feb 28 at 0557, WRNO ID in `Country Roads`, contact info in Ft Worth, S9+10/20 but not solid like it usually is; then into preaching. Bit of C&W music I heard at first may also be religious (Glenn Hauser, OK, WOR)

** U S A. 7505, March 1 at 0746, WRNO S9+40 but very undermodulated with hum, seems gospel huxter in English (Glenn Hauser, OK, WOR)

** U S A. 15555 USB, Wolfgang Bueschel replies to my inquiry whether anyone has been hearing WJHR, with what may be his latest? log: ``USA 15555 USB single sideband audio encoded, WJHR Milton FL, sermon on homo sexuality theme, En screamer male sound, media block 15554.4 to 15558.2 kHz, on upper flank. S=9 at 15.23 UT, Oct 15, 2025 (wb  df5sx, via wwdxc BC-DX TopNews Oct 21, 2025)`` (via Glenn Hauser, WOR)

** U S A. 15555 USB, March 4 at 1548, WJHR Milton FL finally heard again, after weeks absence, S4/S5 but clearly readable, screaming intense gospel huxter mentioning facial recognition in Ecuador; seems more contemporary subject than strictly pre-death sermons of namesake John Hill. Wonder if George S Mock, operator of this glorified ham station have come up with some newer material. Closest Kiwi would be Mobile AL but not getting it when I check later. At 2146 into Maryland SDR, S3/S5 (Glenn Hauser, OK, WOR)

** U S A. (1070), Feb 26 at 0600 UT, I`m monitoring the KHMO Hannibal MO stream, khmoradio.com/listen-live/popup/
to determine whether the `Scott Jennings Show` playback I had been hearing before 0800 was from KHMO or something else. 0601 CBS news, 0607.5 Alex Marlow show starts; but at 0707.5, yes, `Scott Jennings` claiming to be live following SOTU. Yet the defunct Charlie Kirk still appears on the KHMO program websked (Glenn Hauser, OK, WOR)

** U S A. From FCC license of KAAY 1090 Little Rock, power up/down

times:
Average Hours of Sunrise and Sunset
Local Standard Time (Non-Advanced) = CST = UT -6
Month Sunrise Sunset
January   7:15 17:15
February 7:00 17:45
March   6:15 18:15 = UT 1215 0015
April   5:45 18:45
May   5:00 19:00
June   5:00 19:30
July   5:00 19:30
August   5:30 19:00
September 5:45 18:15
October   6:15 17:30
November 6:45 17:00
December 7:15 17:00
We have been trying to confirm audibly and meterly major switches between 50 and 3.4 kW at mandated SR/SS times (Glenn Hauser, OK, WOR)

** U S A. 1580, March 2 at 0543 UT, ``Thanks for choosing KGAL``, and later a Gainesville ad, so it`s really KGAF in TX, which is U1 1200/280 (Glenn Hauser, OK, WOR)

** U S A. 91.5, Feb 26 at 1604 UT, as I am bandscanning for Es FM DX from Florida/Cuba, KSNS Medicine Lodge KS signal is enhanced enough to make it clear that its music is in mono, not $tereo; it`s on the Smile FM network from all over Michigan. WTFDA FM DB does not specify mode as mono. IIRC I have sometimes found the $tereo pilot on (Glenn Hauser, OK, WOR)

** VANUATU. 7260, March 1 at 0745, NO signal from R. Vanuatu, which has lately been reliable tho not always re-logged. No signals on 5040 or 9960 either; now, what? (Glenn Hauser, OK, WOR)

** VANUATU. 7890, March 2 at 0725 and still 0808 UT, JBA carrier, after RV missing from 5040, 7260, 9960, like last night. 7890 = 2 x 3945, where they might be fundamentally. A few years ago, 3945 was putting out harmonix on 7890, 11835, even 15780, until they were suppressed. Perhaps Ron can find out if they have been on 3945 at this hour now. Even when harmonix were audible here, 3945 too low to propagate (Glenn Hauser, OK, WOR)

** VANUATU [and non]. 7260, March 3 at 0523 checking for R Vanuatu into Townsville, Qsld. SDR, since it was missing direct the last two nights. Now it is on, S6/S7 with music, and nothing on any other known RV frequencies, including 7890 where I suspected it harmonicizing from 3945. I`m still on same remote at 0532 when there are probate legal notices in English, now S8/S9; and at 0725 in Bislama now S9+. At 0732 I tune direct and it`s S7/S9, and also a JBA carrier vs noise level on 7890. So what else could be on 7890? Massive UDXF frequency reference shows only Antarctica:

``7890,00
Mawson Station ATA CW   Research station Australia
Mawson Station ATA SITOR Research station Australia
Mawson Station ATA USB   Research station Australia``
(Glenn Hauser, OK, WOR)

** VATICAN. 11815, March 1 at 0756, VR in Ukrainian, S3/S5. Is Sunday only at 0705-0800. No sign of China radio war supposedly on now (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810.55, Feb 27 at 0747, the JBA slightly variable mystery carrier hetting WHB 810 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 869.617, Feb 28 at 0612 UT, JBA carrier hetting 870. Believe I had one around here also recently (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1011 kHz, March 2 at 0551, JBA carrier hetting 1010 stations, about equally E/W and N/S antennas. Another Cuban spoiler? WRTH lists none on 1010 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1080.04 approx., Feb 27 at 1303 UT, LAH to KRLD; carrier was not there before 1300; somestation just signed on or powered up? Nothing this far off in mwoffsets from USA, or anywhere (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1090, March 2 at 0549 UT, sports talk is dominating, equally on the N/S and E/W antennas. NRC AM Log shows only two at least partially sports in English: KPTR Seattle WA U4 50/50 kW; and WAQE Rice Lake WI D1 5 kW (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1441.65 approx., March 2 at 0608 UT, JBA carrier hetting 1440s; as previously heard on about 1441.67 Feb 16 & 18 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7655-7709 approx., March 4 at 0738, multi-carrier, multi-tones beating against each other, quite broad 54 kHz wide; what`s this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9100 CW, Feb 26 at 1537, beeps every 7.5 seconds, i.e. carrier on & off, steady rate of 8X per minute. What`s this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9996 AM, Feb 28 at 0605, carrier here maybe RWM, but no timesignals at this minute, altho some clix bleeding from 10000 WWV (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 15068.4 USB, March 4 at 2318, Spanish 2-way JBA, mentions barco = boat (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 26540, 26575, 26585, 26605, 26715, March 2 at 2313, lots of Spanish 2-way on LSB, some with CCI in defacto CB. Probably deep S America, along with Brazilians in another range, q.v. More Spanish on higher band, such as 27525 USB at 2317 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 26775 LSB, March 2 at 2315, QSO in English discussing QSY to ``26-49`` as there are ``signals all over the band``. Freebanders; not much point in logging all these which can`t be traced (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 27225 USB, Feb 27 at 2304, pro-Trump sounds like a broadcast, probably AI/robovoice reading an article, on a CB channel. Atop the QRM; with skip in, many other channels are a horrible mess of hets, stupid talkers, and also freebanders above the official CBand up at least to 27.5 MHz (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 87.75 MHz, Feb 26 at 1602 UT, something in Spanish into caradio tuned to 87.7 and also 87.9 but less audible. A trace of music at 1609. I hastened to car after seeing on DXMAP sporadic E FM DX being reported up to 99 MHz from OK to Lakeland FL, including 91.7 KOSU. Quick bandscans of bottom half of FM dial do not find anything other unusual, and tropo from KS is somewhat enhanced.

WTFDA FM database shows on 87.7 only one FrankenFM in Spanish, and it`s Florida: ``WEYS-LD 87.7 MIAMI FL SPANISH RELIGIOUS ALMAVISION 6035 3.0 kW H&V 232.0 m 25-58-15 80-12-32 Spanish 3D44 WEYS87.7 Almavision radio -Comprometidos con la verdad Religious Talk`` By 1730, DX opening to Lakeland has moved further south from Texas, then outpeters below FM band.

{Greg Hardison replies: ``Which means they're dropping the ball if they don't show KZNO-LD (Guadalupe Radio), fulltime SS-religion from Mt. Harvard, above Pasadena JSO Mt. Wilson. (Channel 6 ATSC 3.0 Video shows "Jewelry TV", their half-hearted salute to Graven Images.) – the other G H``}

Or could it be Cuba? Did not hear enough to determine whether Christian or Commie, but WRTH 2026 page 771 implies that Cubavisión is still on analogue 6 in Habana with 129 kW. If I enter Enid and Habana on distancefromto.net, it shows 13395.69 km to an Habana on the Queensland coast! No, not that one!
``Habana is a coastal rural locality in the Mackay Region, Queensland, Australia. In the 2021 census, Habana had a population of 1,022 people`` ---
Specifying OK and Cuba: 2095.3 km = 1301.96 statute miles, so quite possible in single-hop Es range (Glenn Hauser, OK, WORLD OF RADIO 2336)
